

# 2026 IMMIGRANT JUSTICE PACKAGE

## Protect Oregonians from Predatory Digital Surveillance

Pass SB 1587 to strengthen consumer protections

In Oregon we believe in the right to privacy. But data brokers are exploiting Oregonians' personal information for profit. This is a violation of personal privacy and when this data is used for the purposes of civil law enforcement, it can have long lasting impacts on individuals' lives.

### The Problem

Data brokers are for-profit businesses that collect, aggregate, and sell individual's private information to the highest bidder. They gather vast amounts of sensitive personal information like your home address, contact information, family details, financial data, purchase history, and even in some cases your real-time location—forming a frighteningly invasive profile of an individual.

### The Solution

Legislators have the opportunity to stop these predatory practices. SB XX will prohibit registered data brokers from selling information for the purposes of civil law enforcement without a judicial warrant.

Data brokers should not profit from serious invasions of privacy. Pass SB XX.

### Data brokers are mining Oregonians' private data for profit.

The business model of data brokers is to harvest your personal information and sell that data - often with no regard to where it ends up. This is a serious breach of privacy. As technology advances, consumers are more vulnerable to these invasions of privacy and often have no way of knowing when they occur. That's why the state must enact sensible regulations and limit this practices in cases of civil law enforcement.

# STAND WITH IMMIGRANT OREGONIANS

When immigrant communities are targeted, families struggle, our economy suffers, and critical systems are pushed to a breaking point. No family should have to plan for parents being torn from their children.

These reckless federal attacks demand a strong, unified response. Oregonians know we are stronger together.
